REGULATIONS

REGULATION (EU) No 952/2013 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 9 October 2013

laying down the Union Customs Code

(recast)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 33, 114 and 207 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee ⁽¹⁾,

Acting in accordance with the ordinary legislative procedure ⁽²⁾,

Whereas:

(1) A number of amendments are to be made to Regulation (EC) No 450/2008 of the European Parliament and of the Council of 23 April 2008 laying down the Community Customs Code (Modernised Customs Code) ⁽³⁾. In the interests of clarity, that Regulation should be recast.

(2) It is appropriate to ensure that Regulation (EC) No 450/2008 is consistent with the Treaty on the Functioning of the European Union (TFEU), in particular Articles 290 and 291 thereof. It is also appropriate that the Regulation take account of the evolution of Union law and that some of its provisions are adapted in order to facilitate their application.

(3) In order to supplement or amend certain non-essential elements of this Regulation, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.

(4) In particular, when preparing and drawing up delegated acts, the Commission should ensure that Member States' experts and the business community are consulted in a transparent manner, and well in advance.

(5) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission in order: to specify the format and code of the common data requirements for the purpose of the exchange of information between the customs authorities and between economic operators and customs authorities and the storage of such information and the procedural rules on the exchange and storage of information which can be made by means other than electronic data-processing techniques; to adopt decisions allowing one or several Member States to use means for the exchange and storage of information other than electronic data-processing techniques; to specify the customs authority which is responsible for the registration of economic operators and of other persons; to specify the technical arrangements for developing, maintaining and employing electronic systems; to specify the procedural rules on the conferral and proving of the entitlement for a customs representative to provide services in a Member State other than the one where he or she is established; the procedural rules on the submission and acceptance of an application for a decision relating to the application of the customs legislation, and on the taking and the monitoring of such a decision; the procedural rules on the annulment,

revocation and amendment of favourable decisions; the procedural rules on the use of a decision relating to binding information after it ceases to be valid or is revoked; the procedural rules on the notification to the customs authorities that the taking of such decisions is suspended and on the withdrawal of such suspension; to adopt decisions requesting Member States to revoke decisions relating to binding information; to adopt the modalities for the application of the criteria for the granting of the status of authorised economic operator; to adopt measures to ensure uniform application of customs controls, including the exchange of risk information and analysis,

common risk criteria and standards, control measures and priority control areas; to determine the ports or airports where customs controls and formalities are to be carried out on cabin and hold baggage; to lay down the rules on currency conversion; to adopt measures on the uniform management of tariff quota and tariff ceilings and the management of the surveillance of the release for free circulation or export of goods; to adopt measures to determine the tariff classification of goods; to specify the procedural rules on the provision and the verification of the proof of non-preferential origin; the procedural rules on the facilitation of the establishment in the Union of the preferential origin of goods; to adopt measures to determine the origin of specific goods; the granting of a temporary derogation from the rules on preferential origin of goods benefiting from preferential measures adopted unilaterally by the Union; the determination of the origin of specific goods;

to specify the procedural rules on the determination of the customs value of goods; to specify the procedural rules on the provision of a guarantee, the determination of its amount, its monitoring and release and the revocation and cancellation of an undertaking given by a guarantor; to specify the procedural rules regarding temporary prohibitions of the use of comprehensive guarantees; to adopt measures to ensure mutual assistance between the customs authorities in the event of the incurrance of a customs debt; to specify the procedural rules on repayment and remission of an amount of import or export duty and the information to be provided to the Commission; to adopt decisions on repayment or remission of an amount of import or export duty; to specify the procedural rules on the lodging, amendment and invalidation of an entry summary declaration; to specify the time-limit within which a risk analysis is to be carried out on the basis of the entry summary declaration; to specify the procedural rules on the notification of arrival of sea-going vessels and aircraft and on the conveyance of goods to the appropriate place; to specify the procedural rules on the presentation of goods to customs; the procedural rules on the lodging, amendment and invalidation of the temporary storage declaration and on the movement of goods in temporary storage; the procedural rules for the provision and verification of the proof of the customs status of Union goods; the procedural rules on the determination of competent customs offices and on the lodging of the customs declaration where other

means than electronic data processing techniques are used; the procedural rules on the lodging of a standard customs declaration and on the making available of supporting documents; the procedural rules on the lodging of a simplified declaration and a supplementary declaration; the procedural rules on the lodging of a customs declaration prior to the presentation of goods to customs, the acceptance of the customs declaration and the amendment of the customs declaration after the release of the goods; to adopt measures for the determination of the tariff subheading of the goods which are subject to the highest rate of import or export duty where a consignment is made of goods falling under different tariff subheadings; to specify the procedural rules on centralised clearance and on the waiver from the obligation for goods to be presented in that context; the procedural rules on entry in the declarant's records; the procedural rules on the customs formalities and controls to be carried out by the holder of the authorisation in the context of self-assessment; to adopt measures on the verification of the customs declaration, the examination and sampling of goods and the results of the verification;

the procedural rules on the disposal of goods; the procedural rules on the provision of information establishing that the conditions for relief from import duty for returned goods are fulfilled and on the provision of evidence that the conditions for relief from import duty for products of sea-fishing and other products taken from the sea are fulfilled; the procedural rules on the examination of the economic conditions in the context of special procedures; the procedural rules on the discharge of a special procedure; the procedural rules on the transfer of rights and obligations and the movement of goods in the context of special procedures; the procedural rules on the use of equivalent goods in the context of special procedures; the procedural rules for the application of the provisions of international transit instruments in the customs territory of the Union; the procedural rules on the placing of goods under the Union transit procedure and on the end of that procedure, on the operation of the simplifications of that procedure and on the customs supervision of goods passing through the territory of a country or territory outside the customs territory of the Union under the external Union transit procedure; the procedural rules on the placing of goods under the customs warehousing or free zone procedure; to lay down the time-limit within which risk analysis is to be carried out on the basis of the pre-departure declaration; to specify the procedural rules on the exit of goods;

the procedural rules on the lodging, amendment and invalidation of the exit summary declaration; the procedural rules on the lodging, amendment and invalidation of the re-export notification; to adopt a work programme supporting the development of related electronic systems and governing the setting up of transitional periods; to adopt decisions authorising Member States to test simplifications in the application of the customs legislation, especially when those simplifications are information technology (IT) related. Those powers

- should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers ⁽¹⁾.
- (6) Considering the cooperation which is needed between the Member States and the Commission to develop, maintain and employ the electronic systems required for the implementation of the Union Customs Code (the Code), the Commission should not adopt the work programme supporting that development and governing the setting up of transitional periods where no opinion is delivered by the committee examining the draft implementing act.
- (7) The advisory procedure should be used for the adoption of: decisions allowing one or several Member States to use means for the exchange and storage of information other than electronic data-processing techniques, given that those decisions do not affect all Member States; decisions requesting Member States to revoke decisions relating to binding information, given that those decisions affect only one Member State and aim at ensuring compliance with the customs legislation; decisions on repayment or remission of an amount of import or export duty given that those decisions directly affect the applicant for that repayment or remission.
- (8) In duly justified cases, where imperative grounds of urgency so require, the Commission should adopt immediately applicable implementing acts relating to: measures to ensure uniform application of customs controls, including the exchange of risk information and analysis, common risk criteria and standards, control measures and priority control areas; the determination of the tariff classification of goods; the determination of the origin of specific goods; measures temporarily prohibiting the use of comprehensive guarantees.
- (9) The Union is based upon a customs union. It is advisable, in the interests both of economic operators and of the customs authorities in the Union, to assemble current customs legislation in a code. Based on the concept of an internal market, that code should contain the general rules and procedures which ensure the implementation of the tariff and other common policy measures introduced at Union level in connection with trade in goods between the Union and countries or territories outside the customs territory of the Union, taking into account the requirements of those common policies. Customs legislation should be better aligned on the provisions relating to the collection of import charges without change to the scope of the tax provisions in force.
- (10) In order to ensure effective administrative simplification, the views of economic operators should be taken into account when the customs legislation is further modernised.
- (11) In accordance with the Commission Communication of 9 August 2004 entitled "Protecting the Communities' financial interests - Fight against fraud - Action Plan for 2004-2005", it is appropriate to adapt the legal framework for the protection of the financial interests of the Union.
- (12) Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code ⁽²⁾ was based upon integration of the customs procedures applied separately in the respective Member States during the 1980s. That Regulation has been repeatedly and substantially amended since its introduction, in order to address specific problems such as the protection of good faith or the taking into account of security requirements. Further amendments to that Regulation were introduced by Regulation (EC) No 648/2005 of the European Parliament and of the Council of 13 April 2005 ⁽³⁾ - and subsequently included in Regulation (EC) No 450/2008 - as a consequence of the important legal changes which have occurred in recent years, at both Union and international level, such as the expiry of the Treaty establishing the European Coal and Steel Community and the entry into force of the 2003, 2005 and 2011 Acts of Accession, as well as the amendment to the International Convention on the simplification and harmonisation of customs procedures (the Revised Kyoto Convention), the Union's accession to which was approved by Council Decision 2003/231/EC of 17 March 2003 ⁽⁴⁾.
- (13) It is appropriate to introduce in the Code a legal framework for the application of certain provisions of the customs legislation to trade in Union goods between parts of the customs territory to which the provisions of Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax ⁽⁵⁾ or Council Directive 2008/118/EC of 16 December 2008 concerning the general arrangements for excise duty ⁽⁶⁾ apply and parts of that territory where those provisions do not apply, or to trade between parts where those provisions do not apply. Considering the fact that the goods concerned are Union goods and considering the fiscal nature of the measures at stake in that intra-Union trade, it is justified to introduce, appropriate simplifications to the customs formalities to be applied to those goods.

⁽⁵⁾ OJ L 347, 11.12.2006, p. 1.

⁽⁶⁾ OJ L 9, 14.1.2009, p. 12.

- (14) In order to take into account the special fiscal regime of certain parts of the customs territory of the Union, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the customs formalities and controls to be applied to the trade in Union goods between those parts and the rest of the customs territory of the Union.
- (15) The facilitation of legitimate trade and the fight against fraud require simple, rapid and standard customs procedures and processes. It is therefore appropriate, in line with the Commission Communication of 24 July 2003 entitled "A simple and paperless environment for customs and trade", to simplify customs legislation, to allow the use of modern tools and technology and to promote further the uniform application of customs legislation and modernised approaches to customs control, thus helping to ensure the basis for efficient and simple clearance procedures. Customs procedures should be merged or aligned and the number of procedures reduced to those that are economically justified, with a view to increasing the competitiveness of business.
- (16) The completion of the internal market, the reduction of barriers to international trade and investment and the reinforced need to ensure security and safety at the external borders of the Union have transformed the role of customs authorities giving them a leading role within the supply chain and, in their monitoring and management of international trade, making them a catalyst to the competitiveness of countries and companies. The customs legislation should therefore reflect the new economic reality and the new role and mission of customs authorities.
- (17) The use of information and communication technologies, as laid down in Decision No 70/2008/EC of the European Parliament and of the Council of 15 January 2008 on a paperless environment for customs and trade⁽¹⁾, is a key element in ensuring trade facilitation and, at the same time, the effectiveness of customs controls, thus reducing costs for business and risk for society. It is therefore necessary to establish in the Code the legal framework within which that Decision can be implemented, in particular the legal principle that all customs and trade transactions are to be handled electronically and that information and communication systems for customs operations are to offer, in each Member State, the same facilities to economic operators.
- (18) In order to ensure a paperless environment for customs and trade, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of common data requirements for the purpose of the exchange and storage of information using electronic data processing techniques, cases where other means may be used for such exchange and storage and registration of persons. Means other than electronic data processing techniques could be used in particular on a transitional basis, where the necessary electronic systems are not yet operational, but not beyond 31 December 2020. Insofar as centralised clearance is concerned, those transitional measures would consist, until the necessary electronic systems are operational, in maintaining the procedure currently known as the 'single authorisation for simplified procedures'.
- (19) Use of information and communication technologies should be accompanied by harmonised and standardised application of customs controls by the Member States, to ensure an equivalent level of customs control throughout the Union so as not to give rise to anti-competitive behaviour at the various Union entry and exit points.
- (20) In the interests of facilitating business, while at the same time providing for the proper levels of control of goods brought into or taken out of the customs territory of the Union, it is desirable that the information provided by economic operators be shared, taking account of the relevant data-protection provisions, between customs authorities and with other agencies involved in that control. Those controls should be harmonised, so that the economic operator need give the information only once and that goods are controlled by those authorities at the same time and at the same place.
- (21) In the interests of facilitating business, all persons should continue to have the right to appoint a representative in their dealings with the customs authorities. However, it should no longer be possible for that right of representation to be reserved under a law laid down by one of the Member States. Furthermore, a customs representative who complies with the criteria for the granting of the status of authorised economic operator for customs simplifications should be entitled to provide his or her services in a Member State other than the Member State where he or she is established. As a general rule, a customs representative should be established in the customs territory of the Union. That obligation should be waived where the customs representative acts on behalf of persons who are not required to be established within the customs territory of the Union or in other justified cases.
- (22) All decisions relating to the application of the customs legislation, including to binding information, should be covered by the same rules. Any such decisions should be valid throughout the Union and should be capable of being annulled, amended except where otherwise stipulated, or revoked where they do not conform to the customs legislation or its interpretation.

⁽¹⁾ OJ L 23, 26.1.2008, p. 21.

- (23) The streamlining of customs procedures within an electronic environment requires the sharing of responsibilities between the customs authorities of different Member States. It is necessary to ensure an appropriate level of effective, dissuasive and proportionate penalties throughout the internal market.
- (24) Compliant and trustworthy economic operators should enjoy the status of 'authorised economic operator' subject to the granting of an authorisation for customs simplifications or an authorisation for security and safety, or both. Depending on the type of authorisation granted, authorised economic operators should be able to take maximum advantage of widespread use of customs simplifications or benefit from facilitations relating to security and safety. They should also be given more favourable treatment in respect of customs controls, such as fewer physical and document-based controls.
- (25) Compliant and trustworthy economic operators should benefit from international mutual recognition of the status of 'authorised economic operator'.
- (26) In order to secure a balance between, on the one hand, the need for customs authorities to ensure the correct application of the customs legislation and, on the other, the right of economic operators to be treated fairly, the customs authorities should be granted extensive powers of control and economic operators a right of appeal.
- (27) In accordance with the Charter of Fundamental Rights of the European Union, it is necessary, in addition to the right of appeal against any decision taken by the customs authorities, to provide for the right of every person to be heard before any decision is taken which would adversely affect him or her. However, restrictions to that right may be justified in particular where the nature or the level of the threat to the security and safety of the Union and its residents, to human, animal or plant health, to the environment or to consumers so requires.
- (28) In order to minimise the risk to the Union, its citizens and its trading partners, the harmonised application of customs controls by the Member States should be based upon a common risk management framework and an electronic system for its implementation. The establishment of a risk management framework common to all Member States should not prevent them from controlling goods by random checks.
- (29) In order to ensure a consistent and equal treatment of persons concerned by customs formalities and controls, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of determining other cases where the customs representative is not obliged to be established in the customs territory of the Union and rules relating to decisions taken by the customs authorities, including those relating to binding information, authorised economic operator and simplifications.
- (30) It is necessary to establish the factors on the basis of which import or export duty and other measures in respect of trade in goods are applied. It is also appropriate to lay down more detailed provisions for issuing proofs of origin in the Union, where the exigencies of trade so require.
- (31) In order to supplement the factors on the basis of which import or export duty and other measures are applied, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of rules on origin of goods.
- (32) It is desirable to group together all cases of incurrence of a customs debt on import, other than following the submission of a customs declaration for release for free circulation or temporary admission with partial relief, in order to avoid difficulties in determining the legal basis on which the customs debt was incurred. The same should apply in cases of incurrence of a customs debt on export.
- (33) It is appropriate to establish the place where the customs debt is incurred and where the import or export duty should be recovered.
- (34) The rules for special procedures should allow for the use of a single guarantee for all categories of special procedures and for that guarantee to be comprehensive, covering a number of transactions.
- (35) A comprehensive guarantee with a reduced amount, including for customs debts and other charges which have been incurred, or a comprehensive guarantee with a guarantee waiver, should be authorised under certain conditions. A comprehensive guarantee with a reduced amount for customs debts and other charges which have been incurred should be equivalent to the provision of a guarantee for the whole amount of import or export duty payable, in particular for the purposes of the release of the goods concerned and of the entry in the accounts.

- (36) In order to ensure better protection of the financial interests of the Union and of the Member States, a guarantee should cover non-declared or incorrectly declared goods included in a consignment or in a declaration for which it is provided. For the same reason, the undertaking of the guarantor should also cover amounts of import or export duty which fall to be paid following post-release controls.
- (37) In order to safeguard the financial interests of the Union and of the Member States and to curb fraudulent practices, arrangements involving graduated measures for the application of a comprehensive guarantee are advisable. Where there is an increased risk of fraud it should be possible to prohibit temporarily the application of the comprehensive guarantee, taking account of the particular situation of the economic operators concerned.
- (38) It is appropriate to take account of the good faith of the person concerned in cases where a customs debt is incurred through non-compliance with the customs legislation and to minimise the impact of negligence on the part of the debtor.
- (39) In order to protect the financial interests of the Union and of the Member States and to supplement the rules concerning the customs debt and the guarantees, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the place of incurrance of the customs debt, the calculation of the amount of import and export duty, the guarantee of that amount and the recovery, repayment, remission and extinguishment of the customs debt.
- (40) It is necessary to lay down the principle of how to determine the customs status of Union goods and the circumstances pertaining to the loss of such status, and to provide a basis for determining when that status remains unaltered in cases where goods are temporarily taken out of the customs territory of the Union.
- (41) In order to ensure free movement of Union goods in the customs territory of the Union and customs treatment of non-Union goods brought into that territory, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the determination of the customs status of goods, the loss of the customs status of Union goods, the preservation of that status for goods temporarily leaving the customs territory of the Union and the duty relief for returned goods.
- (42) It is appropriate, where an economic operator has provided, in advance, the information necessary for risk-based controls on the admissibility of the goods, to ensure that quick release of goods is then the rule. Fiscal and trade policy controls should primarily be performed by the customs office competent in respect of the premises of the economic operator.
- (43) The rules for customs declarations and for the placing of goods under a customs procedure should be modernised and streamlined, in particular by requiring that, as a rule, customs declarations be made electronically and by providing for only one type of simplified declaration and for the possibility to lodge a customs declaration in the form of an entry in the declarant's records.
- (44) Since the Revised Kyoto Convention favours the lodging, registering and checking of the customs declaration prior to the arrival of the goods and, furthermore, the dissociation of the place where the declaration is lodged from the place where the goods are physically located, it is appropriate to provide for centralised clearance at the place where the economic operator is established.
- (45) It is appropriate to lay down at Union level the rules governing the destruction or disposal otherwise of goods by the customs authorities, since these are matters which previously required national legislation.
- (46) In order to supplement the rules regarding the placing of goods under a customs procedure and ensure equal treatment of the persons concerned, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the rules relating to the customs declaration and the release of goods.
- (47) It is appropriate to lay down common and simple rules for the special procedures, supplemented by a small set of rules for each category of special procedure, in order to make it simple for the operator to choose the right procedure, to avoid errors and to reduce the number of post-release recoveries and repayments.
- (48) The granting of authorisations for several special procedures with a single guarantee and a single supervising customs office should be facilitated and there should be simple rules on the incurrance of a customs debt in these cases. The basic principle should be that goods placed under a special procedure, or the products made from them, are to be assessed at the time when the customs debt is incurred. However, it should also be possible, where economically justified, to assess the goods at the time when they were placed under a special procedure. The same principles should apply to usual forms of handling.

- (49) In view of increased security-related measures, the placing of goods into free zones should become a customs procedure and the goods should be subject to customs controls at entry and with regard to records.
- (50) Given that the intention of re-export is no longer necessary, the inward processing suspension procedure should be merged with processing under customs control and the inward processing drawback procedure abandoned. This single inward processing procedure should also cover destruction, except where destruction is carried out by, or under the supervision of, customs.
- (51) In order to supplement the rules on special procedures and ensure equal treatment of the persons concerned, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the rules relating to cases where goods are placed under special procedures, movements, usual forms of handling and equivalence of those goods and discharge of those procedures.
- (52) Security-related measures relating to Union goods taken out of the customs territory of the Union should apply equally to the re-export of non-Union goods. The same rules should apply to all types of goods, with the possibility of exceptions where necessary, such as for goods only transiting through the customs territory of the Union.
- (53) In order to ensure the customs supervision of goods brought into and taken out of the customs territory of the Union and the application of security-related measures, the power to adopt delegated acts in accordance with Article 290 TFEU should be delegated to the Commission in respect of the rules relating to entry summary declaration and pre-departure declarations.
- (54) In order to explore further customs and trade facilitation, in particular by making use of the most recent tools and technology, Member States should be authorised, under certain conditions and upon application, to test for a limited period of time simplifications in the application of the customs legislation. That possibility should not jeopardise the application of the customs legislation or create new obligations for economic operators, who may take part in these tests on a purely voluntary basis.
- (55) In accordance with the principle of proportionality, as set out in Article 5 of the Treaty on European Union (TEU), it is necessary and appropriate, for the achievement of the basic objectives of enabling the customs union to function effectively and implementing the common commercial policy, to lay down the general rules and procedures applicable to goods brought into or taken out of the customs territory of the Union. In accordance with the first subparagraph of Article 5(4) TEU, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (56) In order to simplify and rationalise customs legislation, a number of provisions contained in autonomous Union acts have, for the sake of transparency, been incorporated into the Code. Council Regulation (EEC) No 3925/91 of 19 December 1991 concerning the elimination of controls and formalities applicable to the cabin and hold baggage of persons taking an intra-Community flight and the baggage of persons making an intra-Community sea crossing⁽¹⁾, Regulation (EEC) No 2913/92, Council Regulation (EC) No 1207/2001 of 11 June 2001 on procedures to facilitate the issue or the making out in the Community of proofs of origin and the issue of certain approved exporter authorisations under the provisions governing preferential trade between the European Community and certain countries⁽²⁾, and Regulation (EC) No 450/2008 should therefore be repealed.
- (57) The provisions of this Regulation setting out the delegation of power and the conferral of implementing powers and the provisions on charges and costs should apply from the date of entry into force of this Regulation. The other provisions should apply from 1 June 2016.
- (58) This Regulation should be without prejudice to existing and future Union rules on access to documents adopted in accordance with Article 15(3) TFEU. It should also be without prejudice to national rules on access to documents.
- (59) The Commission should make every effort to ensure that the delegated and implementing acts provided for in this Regulation enter into force sufficiently in advance of the application date of the Code to allow its timely implementation by Member States,

Except where otherwise provided, that requirement shall be waived where the customs representative acts on behalf of persons who are not required to be established within the customs territory of the Union.

3. Member States may determine, in accordance with Union law, the conditions under which a customs representative may provide services in the Member State where he or she is established. However, without prejudice to the application of less stringent criteria by the Member State concerned, a customs representative who complies with the criteria laid down in points (a) to (d) of Article 39 shall be entitled to provide such services in a Member State other than the one where he or she is established.

3. The competent customs authority shall take a decision as referred to in paragraph 1, and shall notify the applicant without delay, and at the latest within 120 days of the date of acceptance of the application, except where otherwise provided.

- (c) if the information had been correct and complete, the decision would have been different.

2. Except where otherwise provided, a favourable decision addressed to several persons may be revoked only in respect of a person who fails to fulfil an obligation imposed under that decision.

3. The holder of the decision shall be notified of its revocation or amendment.

4. Article 22(4) shall apply to the revocation or amendment of the decision.

However, in exceptional cases where the legitimate interests of the holder of the decision so require, the customs authorities may defer the date on which revocation or amendment takes effect up to one year. That date shall be indicated in the revoking or amending decision.

Decisions taken without prior application

Except when a customs authority acts as a judicial authority, Article 22(4), (5), (6) and (7), Article 23(3) and Articles 26, 27 and 28 shall also apply to decisions taken by the customs authorities without prior application by the person concerned.

Article 30

Limitations applicable to decisions on goods placed under a customs procedure or in temporary storage

Except where the person concerned so requests, the revocation, amendment or suspension of a favourable decision shall not affect goods which, at the moment where the revocation, amendment or suspension takes effect, have already been placed and are still under a customs procedure or in temporary storage by virtue of the revoked, amended or suspended decision.

*Article 31***Delegation of power**

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine:

- (a) the cases, referred to in Article 28(2), where a favourable decision addressed to several persons may be revoked also in respect of persons other than the person who fails to fulfil an obligation imposed under that decision;
- (b) the exceptional cases, in which the customs authorities may defer the date on which revocation or amendment takes effect in accordance with the second subparagraph of Article 28(4).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

*Article 33***Decisions relating to binding information**

1. The customs authorities shall, upon application, take decisions relating to binding tariff information (BTI decisions), or decisions relating to binding origin information (BOI decisions).

Such an application shall not be accepted in any of the following circumstances:

- (a) where the application is made, or has already been made, at the same or another customs office, by or on behalf of the holder of a decision in respect of the same goods and, for BOI decisions, under the same circumstances determining the acquisition of origin;
- (b) where the application does not relate to any intended use of the BTI or BOI decision or any intended use of a customs procedure.

2. BTI or BOI decisions shall be binding, only in respect of the tariff classification or determination of the origin of goods:

(a) on the customs authorities, as against the holder of the decision, only in respect of goods for which customs formalities are completed after the date on which the decision takes effect;

(b) on the holder of the decision, as against the customs authorities, only with effect from the date on which he or she receives, or is deemed to have received, notification of the decision.

3. BTI or BOI decisions shall be valid for a period of three years from the date on which the decision takes effect.

4. For the application of a BTI or BOI decision in the context of a particular customs procedure, the holder of the decision shall be able to prove that:

(a) in the case of a BTI decision, the goods declared correspond in every respect to those described in the decision;

(b) in the case of a BOI decision, the goods in question and the circumstances determining the acquisition of origin correspond in every respect to the goods and the circumstances described in the decision.

*Article 34***Management of decisions relating to binding information**

1. A BTI decision shall cease to be valid before the end of the period referred to in Article 33(3) where it no longer conforms to the law, as a result of either of the following:

(a) the adoption of an amendment to the nomenclatures referred to in points (a) and (b) of Article 56(2);

(b) the adoption of measures referred to in Article 57(4);

with effect from the date of application of such amendment or measures.

2. A BOI decision shall cease to be valid before the end of the period referred to in Article 33(3) in any of the following cases:

(a) where a regulation is adopted or an agreement is concluded by, and becomes applicable in, the Union, and the BOI decision no longer conforms to the law thereby laid down, with effect from the date of application of that regulation or agreement;

(b) where it is no longer compatible with the Agreement on Rules of Origin established in the World Trade Organisation (WTO) or with the explanatory notes or an origin opinion adopted for the interpretation of that Agreement, with effect from the date of their publication in the *Official Journal of the European Union*.

3. BTI or BOI decisions shall not cease to be valid with retroactive effect.

4. By way of derogation from Article 23(3) and Article 27, BTI and BOI decisions shall be annulled where they are based on inaccurate or incomplete information from the applicants.

5. BTI and BOI decisions shall be revoked in accordance with Article 23(3) and Article 28. However, such decisions shall not be revoked upon application by the holder of the decision.

6. BTI and BOI decisions may not be amended.

7. The customs authorities shall revoke BTI decisions:

(a) where they are no longer compatible with the interpretation of any of the nomenclatures referred to in points (a) and (b) of Article 56(2) resulting from any of the following:

(i) explanatory notes referred to in the second indent of point (a) of Article 9(1) of Council Regulation (EEC) No 2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff⁽¹⁾, with effect from the date of their publication in the *Official Journal of the European Union*;

(ii) a judgment of the Court of Justice of the European Union, with effect from the date of publication of the operative part of the judgment in the *Official Journal of the European Union*;

(b) in other specific cases.

8. BOI decisions shall be revoked:

(a) where they are no longer compatible with a judgment of the Court of Justice of the European Union, with effect from the date of publication of the operative part of the judgment in the *Official Journal of the European Union*; or

(b) in other specific cases.

9. Where point (b) of paragraph 1 or paragraphs 2, 7 or 8 apply, a BTI or BOI decision may still be used in respect of binding contracts which were based upon that decision and were concluded before it ceased to be valid or was revoked. That extended use shall not apply where a BOI decision is taken for goods to be exported.

The extended use referred to in the first subparagraph shall not exceed six months from the date on which the BTI or BOI decision ceases to be valid or is revoked. However, a measure referred to in Article 57(4) or in Article 67 may exclude that extended use or lay down a shorter period of time. In the case of products for which an import or export certificate is submitted when customs formalities are carried out, the period of six months shall be replaced by the period of validity of the certificate.

In order to benefit from the extended use of a BTI or BOI decision, the holder of that decision shall lodge an application to the customs authority that took the decision within 30 days of the date on which it ceases to be valid or is revoked, indicating the quantities for which a period of extended use is requested and the Member State or Member States in which goods will be cleared under the period of extended use. That customs authority shall take a decision on the extended use and notify the holder, without delay, and at the latest within 30 days of the date on which it receives all the information required in order to enable it to take that decision.

10. The Commission shall notify the customs authorities where:

(a) the taking of BTI and BOI decisions, for goods whose correct and uniform tariff classification or determination of origin is not ensured, is suspended; or

(b) the suspension referred to in point (a) is withdrawn.

11. The Commission may adopt decisions requesting Member States to revoke BTI or BOI decisions, to ensure a correct and uniform tariff classification or determination of the origin of goods.

⁽¹⁾ OJ L 256, 7.9.1987, p. 1.

*Article 35***Decisions relating to binding information with regard to other factors**

In specific cases, the customs authorities shall, upon application, take decisions relating to binding information with regard to other factors referred to in Title II, on the basis of which import or export duty and other measures in respect of trade in goods are applied.

*Article 36***Delegation of power**

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine:

- (a) the specific cases referred to in point (b) of Article 34(7) and point (b) of Article 34(8), where BTI and BOI decisions are to be revoked;

Section 4**Authorised economic operator***Article 38***Application and authorisation**

1. An economic operator who is established in the customs territory of the Union and who meets the criteria set out in Article 39 may apply for the status of authorised economic operator.

The customs authorities shall, following consultation with other competent authorities if necessary, grant that status, which shall be subject to monitoring.

2. The status of authorised economic operator shall consist in the following types of authorisations:

- (a) that of an authorised economic operator for customs simplifications, which shall enable the holder to benefit from certain simplifications in accordance with the customs legislation; or
- (b) that of an authorised economic operator for security and safety that shall entitle the holder to facilitations relating to security and safety.

3. Both types of authorisations referred to in paragraph 2 may be held at the same time.

4. The status of authorised economic operator shall, subject to Articles 39, 40 and 41, be recognised by the customs authorities in all Member States.

5. Customs authorities shall, on the basis of the recognition of the status of authorised economic operator for customs simplifications and provided that the requirements related to a specific type of simplification provided for in the customs legislation are fulfilled, authorise the operator to benefit from that simplification. Customs authorities shall not re-examine those criteria which have already been examined when granting the status of authorised economic operator.

6. The authorised economic operator referred to in paragraph 2 shall enjoy more favourable treatment than other economic operators in respect of customs controls according to the type of authorisation granted, including fewer physical and document-based controls.

7. The customs authorities shall grant benefits resulting from the status of authorised economic operator to persons established in countries or territories outside the customs territory of the Union, who fulfil conditions and comply with obligations defined by the relevant legislation of those countries or territories, insofar as those conditions and obligations are recognised by the Union as equivalent to those imposed to authorised economic operators established in the customs territory of the Union. Such a granting of benefits shall be based on the principle of reciprocity unless otherwise decided by the Union, and shall be supported by an international agreement or Union legislation in the area of the common commercial policy.

Article 39

Granting of status

The criteria for the granting of the status of authorised economic operator shall be the following:

- (a) the absence of any serious infringement or repeated infringements of customs legislation and taxation rules, including no record of serious criminal offences relating to the economic activity of the applicant;
- (b) the demonstration by the applicant of a high level of control of his or her operations and of the flow of goods, by means of a system of managing commercial and, where appropriate, transport records, which allows appropriate customs controls;
- (c) financial solvency, which shall be deemed to be proven where the applicant has good financial standing, which enables him or her to fulfil his or her commitments, with due regard to the characteristics of the type of business activity concerned;
- (d) with regard to the authorisation referred to in point (a) of Article 38(2), practical standards of competence or

professional qualifications directly related to the activity carried out; and

- (e) with regard to the authorisation referred to in point (b) of Article 38(2), appropriate security and safety standards, which shall be considered as fulfilled where the applicant demonstrates that he or she maintains appropriate measures to ensure the security and safety of the international supply chain including in the areas of physical integrity and access controls, logistical processes and handling of specific types of goods, personnel and identification of his or her business partners.

Article 40

Delegation of power

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine the following:

- (c) the more favourable treatment referred to in Article 38(6).

Article 41

Conferral of implementing powers

The Commission shall adopt, by means of implementing acts, the modalities for the application of the criteria referred to in Article 39.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

Section 5

Penalties

Article 42

Application of penalties

1. Each Member State shall provide for penalties for failure to comply with the customs legislation. Such penalties shall be effective, proportionate and dissuasive.
2. Where administrative penalties are applied, they may take, inter alia, one or both of the following forms:
 - (a) a pecuniary charge by the customs authorities, including, where appropriate, a settlement applied in place of and in lieu of a criminal penalty;

- (b) the revocation, suspension or amendment of any authorisation held by the person concerned.

3. Member States shall notify the Commission, within 180 days from the date of application of this Article, as determined in accordance with Article 288(2), of the national provisions in force, as envisaged in paragraph 1 of this Article, and shall notify it without delay of any subsequent amendment affecting those provisions.

Section 6

Appeals

Article 43

Decisions taken by a judicial authority

Articles 44 and 45 shall not apply to appeals lodged with a view to the annulment, revocation or amendment of a decision relating to the application of the customs legislation taken by a judicial authority, or by customs authorities acting as judicial authorities.

Article 44

Right of appeal

1. Any person shall have the right to appeal against any decision taken by the customs authorities relating to the application of the customs legislation which concerns him or her directly and individually.

Any person who has applied to the customs authorities for a decision and has not obtained a decision on that application within the time-limits referred to in Article 22(3) shall also be entitled to exercise the right of appeal.

2. The right of appeal may be exercised in at least two steps:

(a) initially, before the customs authorities or a judicial authority or other body designated for that purpose by the Member States;

(b) subsequently, before a higher independent body, which may be a judicial authority or an equivalent specialised body, according to the provisions in force in the Member States.

3. The appeal shall be lodged in the Member State where the decision was taken or was applied for.

4. Member States shall ensure that the appeals procedure enables the prompt confirmation or correction of decisions taken by the customs authorities.

Article 45

Suspension of implementation

1. The submission of an appeal shall not cause implementation of the disputed decision to be suspended.

2. The customs authorities shall, however, suspend implementation of such a decision in whole or in part where they have good reason to believe that the disputed decision is inconsistent with the customs legislation or that irreparable damage is to be feared for the person concerned.

3. In the cases referred to in paragraph 2, where the disputed decision has the effect of causing import or export duty to be payable, suspension of implementation of that decision shall be conditional upon the provision of a guarantee, unless it is established, on the basis of a documented assessment, that such a guarantee would be likely to cause the debtor serious economic or social difficulties.

Section 7

Control of goods

Article 46

Risk management and customs controls

1. The customs authorities may carry out any customs controls they deem necessary.

Customs controls may in particular consist of examining goods, taking samples, verifying the accuracy and completeness of the information given in a declaration or notification and the existence, authenticity, accuracy and validity of documents, examining the accounts of economic operators and other records, inspecting means of transport, inspecting luggage and other goods carried by or on persons and carrying out official enquiries and other similar acts.

2. Customs controls, other than random checks, shall primarily be based on risk analysis using electronic data-processing techniques, with the purpose of identifying and evaluating the risks and developing the necessary counter-measures, on the basis of criteria developed at national, Union and, where available, international level.

3. Customs controls shall be performed within a common risk management framework, based upon the exchange of risk information and risk analysis results between customs administrations and establishing common risk criteria and standards, control measures and priority control areas.

Controls based upon such information and criteria shall be carried out without prejudice to other controls carried out in accordance with paragraph 1 or with other provisions in force.

4. Customs authorities shall undertake risk management to differentiate between the levels of risk associated with goods subject to customs control or supervision and to determine whether the goods will be subject to specific customs controls, and if so, where.

The risk management shall include activities such as collecting data and information, analysing and assessing risk, prescribing and taking action and regularly monitoring and reviewing that process and its outcomes, based on international, Union and national sources and strategies.

5. Customs authorities shall exchange risk information and risk analysis results where:

- (a) the risks are assessed by a customs authority as being significant and requiring customs control and the results of the control establish that the event triggering the risks has occurred; or
- (b) the control results do not establish that the event triggering the risks has occurred, but the customs authority concerned considers the threat to present a high risk elsewhere in the Union.

6. For the establishment of the common risk criteria and standards, the control measures and the priority control areas referred to in paragraph 3, account shall be taken of all of the following:

- (a) the proportionality to the risk;
- (b) the urgency of the necessary application of the controls;
- (c) the probable impact on trade flow, on individual Member States and on control resources.

7. The common risk criteria and standards referred to in paragraph 3 shall include all of the following:

- (a) a description of the risks;
- (b) the factors or indicators of risk to be used to select goods or economic operators for customs control;
- (c) the nature of customs controls to be undertaken by the customs authorities;

(d) the duration of the application of the customs controls referred to in point (c).

8. Priority control areas shall cover particular customs procedures, types of goods, traffic routes, modes of transport or economic operators which are subject to increased levels of risk analysis and customs controls during a certain period, without prejudice to other controls usually carried out by the customs authorities.

Article 47

Cooperation between authorities

1. Where, in respect of the same goods, controls other than customs controls are to be performed by competent authorities other than the customs authorities, customs authorities shall, in close cooperation with those other authorities, endeavour to have those controls performed, wherever possible, at the same time and place as customs controls (one-stop-shop), with customs authorities having the coordinating role in achieving this.

2. In the framework of the controls referred to in this Section, customs and other competent authorities may, where necessary for the purposes of minimising risk and combating fraud, exchange with each other and with the Commission data received in the context of the entry, exit, transit, movement, storage and end-use of goods, including postal traffic, moved between the customs territory of the Union and countries or territories outside the customs territory of the Union, the presence and movement within the customs territory of the Union of non-Union goods and goods placed under the end-use procedure, and the results of any control. Customs authorities and the Commission may also exchange such data with each other for the purpose of ensuring a uniform application of the customs legislation.

Article 48

Post-release control

For the purpose of customs controls, the customs authorities may verify the accuracy and completeness of the information given in a customs declaration, temporary storage declaration, entry summary declaration, exit summary declaration, re-export declaration or re-export notification, and the existence, authenticity, accuracy and validity of any supporting document and may examine the accounts of the declarant and other records relating to the operations in respect of the goods in question or to prior or subsequent commercial operations involving those goods after having released them. Those authorities may also examine such goods and/or take samples where it is still possible for them to do so.

Such controls may be carried out at the premises of the holder of the goods or of the holder's representative, of any other person directly or indirectly involved in those operations in a business capacity or of any other person in possession of those documents and data for business purposes.

*Article 49***Intra-Union flights and sea crossings**

1. Customs controls or formalities shall be carried out in respect of the cabin and hold baggage of persons either taking an intra-Union flight, or making an intra-Union sea crossing, only where the customs legislation provides for such controls or formalities.

2. Paragraph 1 shall apply without prejudice to either of the following:

(a) security and safety checks;

(b) checks linked to prohibitions or restrictions.

*Article 50***Conferral of implementing powers**

1. The Commission shall adopt, by means of implementing acts, measures to ensure uniform application of the customs controls, including the exchange of risk information and risk analysis results, the common risk criteria and standards, the control measures and the priority control areas referred to in Article 46(3).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

On imperative grounds of urgency relating to such measures, duly justified by the need to rapidly update the common risk management framework and adapt the exchange of risk information and analysis, common risk criteria and standards, control measures and priority control areas to the evolution of risks, the Commission shall adopt immediately applicable implementing acts in accordance with the procedure referred to in Article 285(5).

Where the opinion of the committee referred to in Article 285(1) is to be obtained by written procedure, Article 285(6) shall apply.

2. The Commission shall determine, by means of implementing acts, the ports or airports where, in accordance with Article 49, customs controls and formalities are applied to the following:

(a) the cabin and hold baggage of persons:

(i) taking a flight in an aircraft which comes from a non-Union airport and which, after a stopover at a Union airport, continues to another Union airport;

(ii) taking a flight in an aircraft which stops over at a Union airport before continuing to a non-Union airport;

(iii) using a maritime service provided by the same vessel and comprising successive legs departing from, calling at or terminating in a non-Union port;

(iv) on board pleasure craft and tourist or business aircraft;

(b) cabin and hold baggage:

(i) arriving at a Union airport on board an aircraft coming from a non-Union airport and transferred at that Union airport to another aircraft proceeding on an intra-Union flight;

(ii) loaded at a Union airport onto an aircraft proceeding on an intra-Union flight for transfer at another Union airport to an aircraft whose destination is a non-Union airport.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

Section 8**Keeping of documents and other information, and charges and costs***Article 51***Keeping of documents and other information**

1. The person concerned shall, for the purposes of customs controls, keep the documents and information referred to in Article 15(1) for at least three years, by any means accessible by and acceptable to the customs authorities.

In the case of goods released for free circulation in circumstances other than those referred to in the third subparagraph, or goods declared for export, that period shall run from the end of the year in which the customs declarations for release for free circulation or export are accepted.

In the case of goods released for free circulation duty-free or at a reduced rate of import duty on account of their end-use, that period shall run from the end of the year in which they cease to be subject to customs supervision.

In the case of goods placed under another customs procedure or of goods in temporary storage, that period shall run from the end of the year in which the customs procedure concerned has been discharged or temporary storage has ended.

2. Without prejudice to Article 103(4), where a customs control in respect of a customs debt shows that the relevant entry in the accounts has to be corrected and the person concerned has been notified of this, the documents and information shall be kept for three years beyond the time-limit provided for in paragraph 1 of this Article.

Where an appeal has been lodged or where court proceedings have begun, the documents and information shall be kept for the period provided for in paragraph 1 or until the appeals procedure or court proceedings are terminated, whichever is the later.

Article 52

Charges and costs

1. Customs authorities shall not impose charges for the performance of customs controls or any other application of the customs legislation during the official opening hours of their competent customs offices.

2. Customs authorities may impose charges or recover costs where specific services are rendered, in particular the following:

- (a) attendance, where requested, by customs staff outside official office hours or at premises other than customs premises;
- (b) analyses or expert reports on goods and postal fees for the return of goods to an applicant, particularly in respect of decisions taken pursuant to Article 33 or the provision of information in accordance with Article 14(1);
- (c) the examination or sampling of goods for verification purposes, or the destruction of goods, where costs other than the cost of using customs staff are involved;
- (d) exceptional control measures, where these are necessary due to the nature of the goods or to a potential risk.

CHAPTER 3

Currency conversion and time-limits

Article 53

Currency conversion

1. The competent authorities shall publish and/or make available on the Internet the rate of exchange applicable where the conversion of currency is necessary for one of the following reasons:

- (a) because factors used to determine the customs value of goods are expressed in a currency other than that of the Member State where the customs value is determined;

- (b) because the value of the euro is required in national currencies for the purposes of determining the tariff classification of goods and the amount of import and export duty, including value thresholds in the Common Customs Tariff.

2. Where the conversion of currency is necessary for reasons other than those referred to in paragraph 1, the value of the euro in national currencies to be applied within the framework of the customs legislation shall be fixed at least once a year.

Article 54

Conferral of implementing powers

The Commission shall lay down, by means of implementing acts, rules on currency conversions for the purposes referred to in Article 53(1) and (2).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

Article 55

Periods, dates and time-limits

1. Unless otherwise provided, where a period, date or time-limit is laid down in the customs legislation, such period shall not be extended or reduced and such date or time-limit shall not be deferred or brought forward.

2. The rules applicable to periods, dates and time-limits set out in Regulation (EEC, Euratom) No 1182/71 of the Council of 3 June 1971 determining the rules applicable to periods, dates and time-limits⁽¹⁾ shall apply, except where otherwise provided for in the customs legislation.

Article 56

Common Customs Tariff and surveillance

1. Import and export duty due shall be based on the Common Customs Tariff.

Other measures prescribed by Union provisions governing specific fields relating to trade in goods shall, where appropriate, be applied in accordance with the tariff classification of those goods.

2. The Common Customs Tariff shall comprise all of the following:

- (a) the Combined Nomenclature of goods as laid down in Regulation (EEC) No 2658/87;
- (b) any other nomenclature which is wholly or partly based on the Combined Nomenclature or which provides for further subdivisions to it, and which is established by Union provisions governing specific fields with a view to the application of tariff measures relating to trade in goods;
- (c) the conventional or normal autonomous customs duty applicable to goods covered by the Combined Nomenclature;
- (d) the preferential tariff measures contained in agreements which the Union has concluded with certain countries or territories outside the customs territory of the Union or groups of such countries or territories;

3. Where the goods concerned fulfil the conditions included in the measures laid down in points (d) to (g) of paragraph 2, the measures referred to in those provisions shall apply, upon application by the declarant, instead of those provided for in point (c) of that paragraph. Such application may be made retrospectively, provided that the time-limits and conditions laid down in the relevant measure or in the Code are complied with.

4. Where application of the measures referred to in points (d) to (g) of paragraph 2, or the exemption from measures referred to in point (h) thereof, is restricted to a certain volume of imports or exports, such application or exemption

shall, in the case of tariff quotas, cease as soon as the specified volume of imports or exports is reached.

In the case of tariff ceilings such application shall cease by virtue of a legal act of the Union.

5. The release for free circulation or the export of goods, to which the measures referred to in paragraphs 1 and 2 apply, may be made subject to surveillance.

Article 57

Tariff classification of goods

1. For the application of the Common Customs Tariff, tariff classification of goods shall consist in the determination of one of the subheadings or further subdivisions of the Combined Nomenclature under which those goods are to be classified.

2. For the application of non-tariff measures, tariff classification of goods shall consist in the determination of one of the subheadings or further subdivisions of the Combined Nomenclature, or of any other nomenclature which is established by Union provisions and which is wholly or partly based on the Combined Nomenclature or which provides for further subdivisions to it, under which those goods are to be classified.

3. The subheading or further subdivision determined in accordance with paragraphs 1 and 2 shall be used for the purpose of applying the measures linked to that subheading.

4. The Commission may adopt measures to determine the tariff classification of goods in accordance with paragraphs 1 and 2.

Article 58

Conferral of implementing powers

1. The Commission shall adopt, by means of implementing acts, measures on the uniform management of the tariff quotas and the tariff ceilings referred to in Article 56(4) and on the management of the surveillance of the release for free circulation or export of goods, referred to in Article 56(5).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

2. The Commission shall adopt, by means of implementing acts, the measures referred to in Article 57(4).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

On imperative grounds of urgency relating to such measures, duly justified by the need to rapidly ensure the correct and uniform application of the Combined Nomenclature, the Commission shall adopt immediately applicable implementing acts in accordance with the procedure referred to in Article 285(5).

Where the opinion of the committee referred to in Article 285(1) is to be obtained by written procedure, Article 285(6) shall apply.

CHAPTER 2

Origin of goods

Section 1

Non-preferential origin

Article 59

Scope

Articles 60 and 61 shall lay down rules for the determination of the non-preferential origin of goods for the purposes of applying the following:

- (a) the Common Customs Tariff, with the exception of the measures referred to in points (d) and (e) of Article 56(2);
- (b) measures, other than tariff measures, established by Union provisions governing specific fields relating to trade in goods; and
- (c) other Union measures relating to the origin of goods.

Article 60

Acquisition of origin

1. Goods wholly obtained in a single country or territory shall be regarded as having their origin in that country or territory.

2. Goods the production of which involves more than one country or territory shall be deemed to originate in the country or territory where they underwent their last, substantial, economically-justified processing or working, in an undertaking equipped for that purpose, resulting in the manufacture of a new product or representing an important stage of manufacture.

Article 61

Proof of origin

1. Where an origin has been indicated in the customs declaration pursuant to the customs legislation, the customs authorities may require the declarant to prove the origin of the goods.

2. Where proof of origin of goods is provided pursuant to the customs legislation or other Union legislation governing specific fields, the customs authorities may, in the event of reasonable doubt, require any additional evidence needed in order to ensure that the indication of origin complies with the rules laid down by the relevant Union legislation.

3. Where the exigencies of trade so require, a document proving origin may be issued in the Union in accordance with the rules of origin in force in the country or territory of destination or any other method identifying the country where the goods were wholly obtained or underwent their last substantial transformation.

Article 62

Delegation of power

The Commission shall be empowered to adopt delegated acts in accordance with Article 284, laying down the rules under which goods, whose determination of non-preferential origin is required for the purposes of applying the Union measures referred to in Article 59, are considered as wholly obtained in a single country or territory or to have undergone their last, substantial, economically-justified processing or working, in an undertaking equipped for that purpose, resulting in the manufacture of a new product or representing an important stage of manufacture in a country or territory, in accordance with Article 60.

Article 63

Conferral of implementing powers

The Commission shall adopt, by means of implementing acts, the procedural rules for the provision and verification of the proof of origin referred to in Article 61.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

Section 2

Preferential origin

Article 64

Preferential origin of goods

1. In order to benefit from the measures referred to in points (d) or (e) of Article 56(2) or from non-tariff preferential measures, goods shall comply with the rules on preferential origin referred to in paragraphs 2 to 5 of this Article.

2. In the case of goods benefiting from preferential measures contained in agreements which the Union has concluded with certain countries or territories outside the customs territory of the Union or with groups of such countries or territories, the rules on preferential origin shall be laid down in those agreements.

3. In the case of goods benefiting from preferential measures adopted unilaterally by the Union in respect of certain countries or territories outside the customs territory of the Union or groups of such countries or territories, other than those referred to in paragraph 5, the Commission shall adopt measures laying down the rules on preferential origin.

Those rules shall be based either on the criterion that goods are wholly obtained or on the criterion that goods result from sufficient processing or working.

4. In the case of goods benefiting from preferential measures applicable in trade between the customs territory of the Union and Ceuta and Melilla, as contained in Protocol 2 to the 1985 Act of Accession, the rules on preferential origin shall be adopted in accordance with Article 9 of that Protocol.

5. In the case of goods benefiting from preferential measures contained in preferential arrangements in favour of the overseas countries and territories associated with the Union, the rules on preferential origin shall be adopted in accordance with Article 203 TFEU.

6. Upon its own initiative or at the request of a beneficiary country or territory, the Commission may, for certain goods, grant that country or territory a temporary derogation from the rules on preferential origin referred to in paragraph 3.

The temporary derogation shall be justified by one of the following reasons:

- (a) internal or external factors temporarily deprive the beneficiary country or territory of the ability to comply with the rules on preferential origin;
- (b) the beneficiary country or territory requires time to prepare itself to comply with those rules.

A request for derogation shall be made in writing to the Commission by the beneficiary country or territory concerned. The request shall state the reasons, as indicated in the second subparagraph, why derogation is required and shall contain appropriate supporting documents.

The temporary derogation shall be limited to the duration of the effects of the internal or external factors giving rise to it or the length of time needed for the beneficiary country or territory to achieve compliance with the rules.

Where a derogation is granted, the beneficiary country or territory concerned shall comply with any requirements laid down as to information to be provided to the Commission concerning the use of the derogation and the management of the quantities for which the derogation is granted.

Article 65

Delegation of power

The Commission shall be empowered to adopt delegated acts in accordance with Article 284, laying down the rules on preferential origin referred to in Article 64(3).

Article 66

Conferral of implementing powers

The Commission shall adopt by means of implementing acts:

- (a) the procedural rules, referred to in Article 64(1), to facilitate the establishment in the Union of the preferential origin of goods;
- (b) a measure granting a beneficiary country or territory the temporary derogation referred to in Article 64(6).

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

Section 3

Determination of origin of specific goods

Article 67

Measures taken by the Commission

The Commission may adopt measures to determine the origin of specific goods in accordance with the rules of origin applicable to those goods.

Article 68

Conferral of implementing powers

The Commission shall adopt, by means of implementing acts, the measures referred to in Article 67. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

On imperative grounds of urgency relating to such measures, duly justified by the need to rapidly ensure the correct and uniform application of rules of origin, the Commission shall adopt immediately applicable implementing acts in accordance with the procedure referred to in Article 285(5).

Where the opinion of the committee referred to in Article 285(1) is to be obtained by written procedure, Article 285(6) shall apply.

CHAPTER 3

Value of goods for customs purposes

Article 69

Scope

The customs value of goods, for the purposes of applying the Common Customs Tariff and non-tariff measures laid down by Union provisions governing specific fields relating to trade in goods, shall be determined in accordance with Articles 70 and 74.

Article 70

Method of customs valuation based on the transaction value

1. The primary basis for the customs value of goods shall be the transaction value, that is the price actually paid or payable for the goods when sold for export to the customs territory of the Union, adjusted, where necessary.

2. The price actually paid or payable shall be the total payment made or to be made by the buyer to the seller or by the buyer to a third party for the benefit of the seller for the imported goods and include all payments made or to be made as a condition of sale of the imported goods.

3. The transaction value shall apply provided that all of the following conditions are fulfilled:

(a) there are no restrictions as to the disposal or use of the goods by the buyer, other than any of the following:

(i) restrictions imposed or required by a law or by the public authorities in the Union;

(ii) limitations of the geographical area in which the goods may be resold;

(iii) restrictions which do not substantially affect the customs value of the goods;

(b) the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued;

(c) no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made;

(d) the buyer and seller are not related or the relationship did not influence the price.

Article 71

Elements of the transaction value

1. In determining the customs value under Article 70, the price actually paid or payable for the imported goods shall be supplemented by:

(a) the following, to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods:

(i) commissions and brokerage, except buying commissions;

(ii) the cost of containers which are treated as being one, for customs purposes, with the goods in question; and

(iii) the cost of packing, whether for labour or materials;

(b) the value, apportioned as appropriate, of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable:

(i) materials, components, parts and similar items incorporated into the imported goods;

(ii) tools, dies, moulds and similar items used in the production of the imported goods;

(iii) materials consumed in the production of the imported goods; and

- (iv) engineering, development, artwork, design work, and plans and sketches undertaken elsewhere than in the Union and necessary for the production of the imported goods;
- (c) royalties and licence fees related to the goods being valued that the buyer must pay, either directly or indirectly, as a condition of sale of the goods being valued, to the extent that such royalties and fees are not included in the price actually paid or payable;
- (d) the value of any part of the proceeds of any subsequent resale, disposal or use of the imported goods that accrues directly or indirectly to the seller; and
- (e) the following costs up to the place where goods are brought into the customs territory of the Union:
- (i) the cost of transport and insurance of the imported goods; and
- (ii) loading and handling charges associated with the transport of the imported goods.
2. Additions to the price actually paid or payable, pursuant to paragraph 1, shall be made only on the basis of objective and quantifiable data.
3. No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this Article.
- imported goods, irrespective of whether the finance is provided by the seller or another person, provided that the financing arrangement has been made in writing and, where required, the buyer can demonstrate that the following conditions are fulfilled:
- (i) such goods are actually sold at the price declared as the price actually paid or payable;
- (ii) the claimed rate of interest does not exceed the level for such transactions prevailing in the country where, and at the time when, the finance was provided;
- (d) charges for the right to reproduce the imported goods in the Union;
- (e) buying commissions;
- (f) import duties or other charges payable in the Union by reason of the import or sale of the goods;
- (g) notwithstanding point (c) of Article 71(1), payments made by the buyer for the right to distribute or resell the imported goods, if such payments are not a condition of the sale for export to the Union of the goods.

Article 72

Elements not to be included in the customs value

In determining the customs value under Article 70, none of the following shall be included:

- (a) the cost of transport of the imported goods after their entry into the customs territory of the Union;
- (b) charges for construction, erection, assembly, maintenance or technical assistance, undertaken after the entry into the customs territory of the Union of the imported goods such as industrial plants, machinery or equipment;
- (c) charges for interest under a financing arrangement entered into by the buyer and relating to the purchase of the

Article 73

Simplification

The customs authorities may, upon application, authorise that the following amounts be determined on the basis of specific criteria, where they are not quantifiable on the date on which the customs declaration is accepted:

- (a) amounts which are to be included in the customs value in accordance with Article 70(2); and
- (b) the amounts referred to in Articles 71 and 72.

Article 74

Secondary methods of customs valuation

1. Where the customs value of goods cannot be determined under Article 70, it shall be determined by proceeding sequentially from points (a) to (d) of paragraph 2, until the first point under which the customs value of goods can be determined.

The order of application of points (c) and (d) of paragraph 2 shall be reversed if the declarant so requests.

2. The customs value, pursuant to paragraph 1, shall be:
 - (a) the transaction value of identical goods sold for export to the customs territory of the Union and exported at or about the same time as the goods being valued;
 - (b) the transaction value of similar goods sold for export to the customs territory of the Union and exported at or about the same time as the goods being valued;
 - (c) the value based on the unit price at which the imported goods, or identical or similar imported goods, are sold within the customs territory of the Union in the greatest aggregate quantity to persons not related to the sellers; or
 - (d) the computed value, consisting of the sum of:
 - (i) the cost or value of materials and fabrication or other processing employed in producing the imported goods;
 - (ii) an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of export for export to the Union;
 - (iii) the cost or value of the elements referred to in point (e) of Article 71(1).

3. Where the customs value cannot be determined under paragraph 1, it shall be determined on the basis of data available in the customs territory of the Union, using reasonable means consistent with the principles and general provisions of all of the following:

- (a) the agreement on implementation of Article VII of the General Agreement on Tariffs and Trade;
- (b) Article VII of the General Agreement on Tariffs and Trade;
- (c) this Chapter.

Article 75

Delegation of power

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine the conditions for granting the authorisation referred to in Article 73.

Article 76

Conferral of implementing powers

The Commission shall specify, by means of implementing acts, the procedural rules for:

- (a) determining the customs value in accordance with Articles 70(1) and (2) and Articles 71 and 72, including those for adjusting the price actually paid or payable;
- (b) the application of the conditions referred to in Article 70(3);
- (c) determining the customs value referred to in Article 74.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

TITLE III

CUSTOMS DEBT AND GUARANTEES

CHAPTER 1

Incurrence of a customs debt

Section 1

Customs debt on import

Article 77

Release for free circulation and temporary admission

1. A customs debt on import shall be incurred through the placing of non-Union goods liable to import duty under either of the following customs procedures:

- (a) release for free circulation, including under the end-use provisions;
- (b) temporary admission with partial relief from import duty.

2. A customs debt shall be incurred at the time of acceptance of the customs declaration.

3. The declarant shall be the debtor. In the event of indirect representation, the person on whose behalf the customs declaration is made shall also be a debtor.

Where a customs declaration in respect of one of the procedures referred to in paragraph 1 is drawn up on the basis of information which leads to all or part of the import duty not being collected, the person who provided the information required to draw up the declaration and who knew, or who ought reasonably to have known, that such information was false shall also be a debtor.

Article 78

Special provisions relating to non-originating goods

1. Where a prohibition of drawback of, or exemption from, import duty applies to non-originating goods used in the manufacture of products for which a proof of origin is issued or made out in the framework of a preferential arrangement between the Union and certain countries or territories outside the customs territory of the Union or groups of such countries or territories, a customs debt on import shall be incurred in respect of those non-originating goods, through the acceptance of the re-export declaration relating to the products in question.

2. Where a customs debt is incurred pursuant to paragraph 1, the amount of import duty corresponding to that debt shall be determined under the same conditions as in the case of a customs debt resulting from the acceptance, on the same date, of the customs declaration for release for free circulation of the non-originating goods used in the manufacture of the products in question for the purpose of ending the inward processing procedure.

3. Article 77(2) and (3) shall apply. However, in the case of non-Union goods as referred to in Article 270 the person who lodges the re-export declaration shall be the debtor. In the event of indirect representation, the person on whose behalf the declaration is lodged shall also be a debtor.

Article 79

Customs debt incurred through non-compliance

1. For goods liable to import duty, a customs debt on import shall be incurred through non-compliance with any of the following:

(a) one of the obligations laid down in the customs legislation concerning the introduction of non-Union goods into the customs territory of the Union, their removal from customs supervision, or the movement, processing, storage, temporary storage, temporary admission or disposal of such goods within that territory;

(b) one of the obligations laid down in the customs legislation concerning the end-use of goods within the customs territory of the Union;

(c) a condition governing the placing of non-Union goods under a customs procedure or the granting, by virtue of the end-use of the goods, of duty exemption or a reduced rate of import duty.

2. The time at which the customs debt is incurred shall be either of the following:

(a) the moment when the obligation the non-fulfilment of which gives rise to the customs debt is not met or ceases to be met;

(b) the moment when a customs declaration is accepted for the placing of goods under a customs procedure where it is established subsequently that a condition governing the placing of the goods under that procedure or the granting of a duty exemption or a reduced rate of import duty by virtue of the end-use of the goods was not in fact fulfilled.

3. In cases referred to under points (a) and (b) of paragraph 1, the debtor shall be any of the following:

(a) any person who was required to fulfil the obligations concerned;

(b) any person who was aware or should reasonably have been aware that an obligation under the customs legislation was not fulfilled and who acted on behalf of the person who was obliged to fulfil the obligation, or who participated in the act which led to the non-fulfilment of the obligation;

(c) any person who acquired or held the goods in question and who was aware or should reasonably have been aware at the time of acquiring or receiving the goods that an obligation under the customs legislation was not fulfilled.

4. In cases referred to under point (c) of paragraph 1, the debtor shall be the person who is required to comply with the conditions governing the placing of the goods under a customs procedure or the customs declaration of the goods placed under that customs procedure or the granting of a duty exemption or reduced rate of import duty by virtue of the end-use of the goods.

Where a customs declaration in respect of one of the customs procedures referred to in point (c) of paragraph 1 is drawn up, and any information required under the customs legislation relating to the conditions governing the placing of the goods under that customs procedure is given to the customs authorities, which leads to all or part of the import duty not being collected, the person who provided the information required to draw up the customs declaration and who knew, or who ought reasonably to have known, that such information was false shall also be a debtor.

Article 80

Deduction of an amount of import duty already paid

1. Where a customs debt is incurred, pursuant to Article 79(1) in respect of goods released for free circulation at a reduced rate of import duty on account of their end-use, the amount of import duty paid when the goods were released for free circulation shall be deducted from the amount of import duty corresponding to the customs debt.

The first subparagraph shall apply where a customs debt is incurred in respect of scrap and waste resulting from the destruction of such goods.

2. Where a customs debt is incurred, pursuant to Article 79(1) in respect of goods placed under temporary admission with partial relief from import duty, the amount of import duty paid under partial relief shall be deducted from the amount of import duty corresponding to the customs debt.

Section 2

Customs debt on export

Article 81

Export and outward processing

1. A customs debt on export shall be incurred through the placing of goods liable to export duty under the export procedure or the outward processing procedure.

2. The customs debt shall be incurred at the time of acceptance of the customs declaration.

3. The declarant shall be the debtor. In the event of indirect representation, the person on whose behalf the customs declaration is made shall also be a debtor.

Where a customs declaration is drawn up on the basis of information which leads to all or part of the export duty not

being collected, the person who provided the information required for the declaration and who knew, or who should reasonably have known, that such information was false shall also be a debtor.

Article 82

Customs debt incurred through non-compliance

1. For goods liable to export duty, a customs debt on export shall be incurred through non-compliance with either of the following:

- (a) one of the obligations laid down in the customs legislation for the exit of the goods;
- (b) the conditions under which the goods were allowed to be taken out of the customs territory of the Union with total or partial relief from export duty.

2. The time at which the customs debt is incurred shall be one of the following:

- (a) the moment at which the goods are actually taken out of the customs territory of the Union without a customs declaration;
- (b) the moment at which the goods reach a destination other than that for which they were allowed to be taken out of the customs territory of the Union with total or partial relief from export duty;

(c) should the customs authorities be unable to determine the moment referred to in point (b), the expiry of the time-limit set for the production of evidence that the conditions entitling the goods to such relief have been fulfilled.

3. In cases referred to under point (a) of paragraph 1, the debtor shall be any of the following:

- (a) any person who was required to fulfil the obligation concerned;
- (b) any person who was aware or should reasonably have been aware that the obligation concerned was not fulfilled and who acted on behalf of the person who was obliged to fulfil the obligation;

(c) any person who participated in the act which led to the non-fulfilment of the obligation and who was aware or should reasonably have been aware that a customs declaration had not been lodged but should have been.

4. In cases referred to under point (b) of paragraph 1, the debtor shall be any person who is required to comply with the conditions under which the goods were allowed to be taken out of the customs territory of the Union with total or partial relief from export duty.

Section 3

Provisions common to customs debts incurred on import and export

Article 83

Prohibitions and restrictions

1. The customs debt on import or export shall be incurred even if it relates to goods which are subject to measures of prohibition or restriction on import or export of any kind.

2. However, no customs debt shall be incurred on either of the following:

(a) the unlawful introduction into the customs territory of the Union of counterfeit currency;

(b) the introduction into the customs territory of the Union of narcotic drugs and psychotropic substances other than where strictly supervised by the competent authorities with a view to their use for medical and scientific purposes.

3. For the purposes of penalties as applicable to customs offences, the customs debt shall nevertheless be deemed to have been incurred where, under the law of a Member State, import or export duty or the existence of a customs debt provide the basis for determining penalties.

Article 84

Several debtors

Where several persons are liable for payment of the amount of import or export duty corresponding to one customs debt, they shall be jointly and severally liable for payment of that amount.

Article 85

General rules for calculating the amount of import or export duty

1. The amount of import or export duty shall be determined on the basis of those rules for calculation of duty which were applicable to the goods concerned at the time at which the customs debt in respect of them was incurred.

2. Where it is not possible to determine precisely the time at which the customs debt is incurred, that time shall be deemed to be the time at which the customs authorities conclude that the goods are in a situation in which a customs debt has been incurred.

However, where the information available to the customs authorities enables them to establish that the customs debt had been incurred prior to the time at which they reached that conclusion, the customs debt shall be deemed to have been incurred at the earliest time that such a situation can be established.

Article 86

Special rules for calculating the amount of import duty

1. Where costs for storage or usual forms of handling have been incurred within the customs territory of the Union in respect of goods placed under a customs procedure or in temporary storage, such costs or the increase in value shall not be taken into account for the calculation of the amount of import duty where satisfactory proof of those costs is provided by the declarant.

However, the customs value, quantity, nature and origin of non-Union goods used in the operations shall be taken into account for the calculation of the amount of import duty.

2. Where the tariff classification of goods placed under a customs procedure changes as a result of usual forms of handling within the customs territory of the Union, the original tariff classification for the goods placed under the procedure shall be applied at the request of the declarant.

3. Where a customs debt is incurred for processed products resulting from the inward processing procedure, the amount of import duty corresponding to such debt shall, at the request of the declarant, be determined on the basis of the tariff classification, customs value, quantity, nature and origin of the goods placed under the inward processing procedure at the time of acceptance of the customs declaration relating to those goods.

4. In specific cases, the amount of import duty shall be determined in accordance with paragraphs 2 and 3 of this Article without a request of the declarant in order to avoid the circumvention of tariff measures referred to in point (h) of Article 56(2).

5. Where a customs debt is incurred for processed products resulting from the outward processing procedure or replacement products as referred to in Article 261(1), the amount of import duty shall be calculated on the basis of the cost of the processing operation undertaken outside the customs territory of the Union.

6. Where the customs legislation provides for a favourable tariff treatment of goods, or for relief or total or partial exemption from import or export duty pursuant to points (d) to (g) of Article 56(2), Articles 203, 204, 205 and 208 or Articles 259 to 262 of this Regulation or pursuant to Council Regulation (EC) No 1186/2009 of 16 November 2009 setting up a Community system of reliefs from customs duty⁽¹⁾ such favourable tariff treatment, relief or exemption shall also apply in cases where a customs debt is incurred pursuant to Articles 79 or 82 of this Regulation, on condition that the failure which led to the incurrence of a customs debt did not constitute an attempt at deception.

Article 87

Place where the customs debt is incurred

1. A customs debt shall be incurred at the place where the customs declaration or the re-export declaration referred to in Articles 77, 78 and 81 is lodged.

In all other cases, the place where a customs debt is incurred shall be the place where the events from which it arises occur.

If it is not possible to determine that place, the customs debt shall be incurred at the place where the customs authorities conclude that the goods are in a situation in which a customs debt is incurred.

2. If the goods have been placed under a customs procedure which has not been discharged or when a temporary storage did not end properly, and the place where the customs debt is incurred cannot be determined pursuant to the second or third subparagraphs of paragraph 1 within a specific time-limit, the customs debt shall be incurred at the place where the goods were either placed under the procedure concerned or were introduced into the customs territory of the Union under that procedure or were in temporary storage.

3. Where the information available to the customs authorities enables them to establish that the customs debt may have been incurred in several places, the customs debt shall be deemed to have been incurred at the place where it was first incurred.

4. If a customs authority establishes that a customs debt has been incurred under Article 79 or Article 82 in another Member State and the amount of import or export duty corresponding to that debt is lower than EUR 10 000, the customs debt shall be deemed to have been incurred in the Member State where the finding was made.

Article 88

Delegation of power

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine:

- (a) the rules for the calculation of the amount of import or export duty applicable to goods for which a customs debt is incurred in the context of a special procedure, which supplement the rules laid down in Articles 85 and 86;
- (b) the cases referred to in Article 86(4);
- (c) the time-limit referred to in Article 87(2).

CHAPTER 2

Guarantee for a potential or existing customs debt

Article 89

General provisions

1. This Chapter shall apply to guarantees both for customs debts which have been incurred and for those which may be incurred, unless otherwise specified.

2. Where the customs authorities require a guarantee for a potential or existing customs debt to be provided, that guarantee shall cover the amount of import or export duty and the other charges due in connection with the import or export of the goods where:

- (a) the guarantee is used for the placing of goods under the Union transit procedure; or
- (b) the guarantee may be used in more than one Member State.

A guarantee which may not be used outside the Member State where it is required shall be valid only in that Member State and shall cover at least the amount of import or export duty.

3. Where the customs authorities require a guarantee to be provided, it shall be required from the debtor or the person who may become the debtor. They may also permit the guarantee to be provided by a person other than the person from whom it is required.

4. Without prejudice to Article 97, the customs authorities shall require only one guarantee to be provided in respect of specific goods or a specific declaration.

The guarantee provided for a specific declaration shall apply to the amount of import or export duty corresponding to the customs debt and other charges in respect of all goods covered by or released against that declaration, whether or not that declaration is correct.

⁽¹⁾ OJ L 324, 10.12.2009, p. 23.

If the guarantee has not been released, it may also be used, within the limits of the secured amount, for the recovery of amounts of import or export duty and other charges payable following post-release control of those goods.

5. Upon application by the person referred to in paragraph 3 of this Article, the customs authorities may, in accordance with Article 95(1), (2) and (3), authorise the provision of a comprehensive guarantee to cover the amount of import or export duty corresponding to the customs debt in respect of two or more operations, declarations or customs procedures.

6. The customs authorities shall monitor the guarantee.

7. No guarantee shall be required from States, regional and local government authorities or other bodies governed by public law, in respect of the activities in which they engage as public authorities.

8. No guarantee shall be required in any of the following situations:

- (a) goods carried on the Rhine, the Rhine waterways, the Danube or the Danube waterways;
- (b) goods carried by a fixed transport installation;
- (c) in specific cases where goods are placed under the temporary admission procedure;
- (d) goods placed under the Union transit procedure using the simplification referred to in point (e) of Article 233(4) and carried by sea or air between Union ports or between Union airports.

9. The customs authorities may waive the requirement for provision of a guarantee where the amount of import or export duty to be secured does not exceed the statistical value threshold for declarations laid down in Article 3(4) of Regulation (EC) No 471/2009 of the European Parliament and of the Council of 6 May 2009 on Community statistics relating to external trade with non-member countries ⁽¹⁾.

Article 90

Compulsory guarantee

1. Where it is compulsory for a guarantee to be provided, the customs authorities shall fix the amount of such guarantee at a level equal to the precise amount of import or export duty corresponding to the customs debt and of other charges where that amount can be established with certainty at the time when the guarantee is required.

Where it is not possible to establish the precise amount, the guarantee shall be fixed at the maximum amount, as estimated by the customs authorities, of import or export duty corresponding to the customs debt and of other charges which have been or may be incurred.

2. Without prejudice to Article 95 where a comprehensive guarantee is provided for the amount of import or export duty corresponding to customs debts and other charges which vary in amount over time, the amount of such guarantee shall be set at a level enabling the amount of import or export duty corresponding to customs debts and other charges to be covered at all times.

Article 91

Optional guarantee

Where the provision of a guarantee is optional, such guarantee shall in any case be required by the customs authorities if they consider that the amount of import or export duty corresponding to a customs debt and other charges are not certain to be paid within the prescribed period. Its amount shall be fixed by those authorities so as not to exceed the level referred to in Article 90.

Article 92

Provision of a guarantee

1. A guarantee may be provided in one of the following forms:

- (a) by a cash deposit or by any other means of payment recognised by the customs authorities as being equivalent to a cash deposit, made in euro or in the currency of the Member State in which the guarantee is required;
- (b) by an undertaking given by a guarantor;
- (c) by another form of guarantee which provides equivalent assurance that the amount of import or export duty corresponding to the customs debt and other charges will be paid.

2. A guarantee in the form of a cash deposit or any other equivalent means of payment shall be given in accordance with the provisions in force in the Member State in which the guarantee is required.

Where a guarantee is given by making a cash deposit or any other equivalent means of payment, no interest thereon shall be payable by the customs authorities.

⁽¹⁾ OJ L 152, 16.6.2009, p. 23

*Article 93***Choice of guarantee**

The person required to provide a guarantee may choose between the forms of guarantee laid down in Article 92(1).

However, the customs authorities may refuse to accept the form of guarantee chosen where it is incompatible with the proper functioning of the customs procedure concerned.

The customs authorities may require that the form of guarantee chosen be maintained for a specific period.

*Article 94***Guarantor**

1. The guarantor referred to in point (b) of Article 92(1) shall be a third person established in the customs territory of the Union. The guarantor shall be approved by the customs authorities requiring the guarantee, unless the guarantor is a credit institution, financial institution or insurance company accredited in the Union in accordance with Union provisions in force.

2. The guarantor shall undertake in writing to pay the secured amount of import or export duty corresponding to a customs debt and other charges.

3. The customs authorities may refuse to approve the guarantor or the type of guarantee proposed where either does not appear certain to ensure payment within the prescribed period of the amount of import or export duty corresponding to the customs debt and of other charges.

*Article 95***Comprehensive guarantee**

1. The authorisation referred to in Article 89(5) shall be granted only to persons who satisfy all of the following conditions:

- (a) they are established in the customs territory of the Union;
- (b) they fulfil the criteria laid down in point (a) of Article 39;
- (c) they are regular users of the customs procedures involved or operators of temporary storage facilities or they fulfil the criteria laid down in point (d) of Article 39.

2. Where a comprehensive guarantee is to be provided for customs debts and other charges which may be incurred, an

economic operator may be authorised to use a comprehensive guarantee with a reduced amount or to have a guarantee waiver, provided that he or she fulfils the criteria laid down in points (b) and (c) of Article 39.

3. Where a comprehensive guarantee is to be provided for customs debts and other charges which have been incurred, an authorised economic operator for customs simplification shall, upon application, be authorised to use a comprehensive guarantee with a reduced amount.

4. The comprehensive guarantee with a reduced amount referred to in paragraph 3 shall be equivalent to the provision of a guarantee.

*Article 96***Temporary prohibitions relating to the use of comprehensive guarantees**

1. In the context of special procedures or temporary storage, the Commission may decide to temporarily prohibit recourse to any of the following:

- (a) the comprehensive guarantee for a reduced amount or a guarantee waiver referred to in Article 95(2);
- (b) the comprehensive guarantee referred to in Article 95, in respect of goods which have been identified as being subject to large-scale fraud.

2. Where point (a) or point (b) of paragraph 1 of this Article applies, recourse to the comprehensive guarantee for a reduced amount or a guarantee waiver or recourse to the comprehensive guarantee referred to in Article 95 may be authorised where the person concerned fulfils either of the following conditions:

- (a) that person can show that no customs debt has arisen in respect of the goods in question in the course of operations which that person has undertaken in the two years preceding the decision referred to in paragraph 1;
- (b) where customs debts have arisen in the two years preceding the decision referred to in paragraph 1, the person concerned can show that those debts were fully paid by the debtor or debtors or the guarantor within the prescribed time-limit.

To obtain authorisation to use a temporarily prohibited comprehensive guarantee, the person concerned must also fulfil the criteria laid down in points (b) and (c) of Article 39.

*Article 97***Additional or replacement guarantee**

Where the customs authorities establish that the guarantee provided does not ensure, or is no longer certain or sufficient to ensure, payment within the prescribed period of the amount of import or export duty corresponding to the customs debt and other charges, they shall require any of the persons referred to in Article 89(3) either to provide an additional guarantee or to replace the original guarantee with a new guarantee, according to his choice.

*Article 98***Release of the guarantee**

1. The customs authorities shall release the guarantee immediately when the customs debt or liability for other charges is extinguished or can no longer arise.

2. Where the customs debt or liability for other charges has been extinguished in part, or may arise only in respect of part of the amount which has been secured, a corresponding part of the guarantee shall be released accordingly at the request of the person concerned, unless the amount involved does not justify such action.

*Article 99***Delegation of power**

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine:

- (a) the specific cases, referred to in point (c) of Article 89(8), where no guarantee is required for goods placed under the temporary admission procedure;
- (b) the form of the guarantee, referred to in point (c) of Article 92(1), and the rules concerning the guarantor referred to in Article 94;
- (c) the conditions for the granting of an authorisation to use a comprehensive guarantee with a reduced amount or to have a guarantee waiver referred to in Article 95(2);
- (d) time-limits for the release of a guarantee.

*Article 100***Conferral of implementing powers**

1. The Commission shall specify, by means of implementing acts, the procedural rules:

- (a) for determining the amount of the guarantee, including the reduced amount referred to in Article 95(2) and (3);
- (b) regarding the provision and the monitoring of the guarantee referred to in Article 89, the revocation and cancellation of the undertaking given by the guarantor referred to in Article 94, and the release of the guarantee referred to in Article 98;
- (c) regarding the temporary prohibitions referred to in Article 96.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

2. The Commission shall adopt the measures referred to in Article 96 by means of implementing acts.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

On imperative grounds of urgency relating to such measures, duly justified by the need to rapidly enhance the protection of the financial interests of the Union and of its Member States, the Commission shall adopt immediately applicable implementing acts in accordance with the procedure referred to in Article 285(5).

Where the opinion of the committee referred to in Article 285(1) is to be obtained by written procedure, Article 285(6) shall apply.

CHAPTER 3

Recovery, payment, repayment and remission of the amount of import or export duty

Section 1

Determination of the amount of import or export duty, notification of the customs debt and entry in the accounts*Article 101***Determination of the amount of import or export duty**

1. The amount of import or export duty payable shall be determined by the customs authorities responsible for the place where the customs debt is incurred, or is deemed to have been incurred in accordance with Article 87, as soon as they have the necessary information.

2. Without prejudice to Article 48, the customs authorities may accept the amount of import or export duty payable determined by the declarant.

3. Where the amount of import or export duty payable does not result in a whole number, that amount may be rounded.

Where the amount referred in the first subparagraph is expressed in euros, rounding may not be more than a rounding up or down to the nearest whole number.

A Member State whose currency is not the euro may either apply *mutatis mutandis* the provisions of the second subparagraph or derogate from that subparagraph, provided that the rules applicable on rounding do not have a greater financial impact than the rule set out in the second subparagraph.

Article 102

Notification of the customs debt

1. The customs debt shall be notified to the debtor in the form prescribed at the place where the customs debt is incurred, or is deemed to have been incurred in accordance with Article 87.

The notification referred to in the first subparagraph shall not be made in any of the following cases:

- (a) where, pending a final determination of the amount of import or export duty, a provisional commercial policy measure taking the form of a duty has been imposed;
- (b) where the amount of import or export duty payable exceeds that determined on the basis of a decision made in accordance with Article 33;
- (c) where the original decision not to notify the customs debt or to notify it with an amount of import or export duty at a figure less than the amount of import or export duty payable was taken on the basis of general provisions invalidated at a later date by a court decision;
- (d) where the customs authorities are exempted under the customs legislation from notification of the customs debt.

2. Where the amount of import or export duty payable is equal to the amount entered in the customs declaration, release of the goods by the customs authorities shall be equivalent to notifying the debtor of the customs debt.

3. Where paragraph 2 does not apply, the customs debt shall be notified to the debtor by the customs authorities when they are in a position to determine the amount of import or export duty payable and take a decision thereon.

However, where the notification of the customs debt would prejudice a criminal investigation, the customs authorities may defer that notification until such time as it no longer prejudices the criminal investigation.

4. Provided that payment has been guaranteed, the customs debt corresponding to the total amount of import or export duty relating to all the goods released to one and the same person during a period fixed by the customs authorities may be notified at the end of that period. The period fixed by the customs authorities shall not exceed 31 days.

Article 103

Limitation of the customs debt

1. No customs debt shall be notified to the debtor after the expiry of a period of three years from the date on which the customs debt was incurred.

2. Where the customs debt is incurred as the result of an act which, at the time it was committed, was liable to give rise to criminal court proceedings, the three-year period laid down in paragraph 1 shall be extended to a period of a minimum of five years and a maximum of 10 years in accordance with national law.

3. The periods laid down in paragraphs 1 and 2 shall be suspended where:

- (a) an appeal is lodged in accordance with Article 44; such suspension shall apply from the date on which the appeal is lodged and shall last for the duration of the appeal proceedings; or
- (b) the customs authorities communicate to the debtor, in accordance with Article 22(6), the grounds on which they intend to notify the customs debt; such suspension shall apply from the date of that communication until the end of the period within which the debtor is given the opportunity to express his or her point of view.

4. Where a customs debt is reinstated pursuant to Article 116(7), the periods laid down in paragraphs 1 and 2 shall be considered as suspended from the date on which the application for repayment or remission was submitted in accordance with Article 121, until the date on which the decision on the repayment or remission was taken.

*Article 104***Entry in the accounts**

1. The customs authorities referred to in Article 101 shall enter in their accounts, in accordance with the national legislation, the amount of import or export duty payable as determined in accordance with that Article.

The first subparagraph shall not apply in cases referred to in the second subparagraph of Article 102(1).

2. The customs authorities need not enter in the accounts amounts of import or export duty which, pursuant to Article 103, correspond to a customs debt which could no longer be notified to the debtor.

3. Member States shall determine the practical procedures for the entry in the accounts of the amounts of import or export duty. Those procedures may differ according to whether, in view of the circumstances in which the customs debt was incurred, the customs authorities are satisfied that those amounts will be paid.

*Article 105***Time of entry in the accounts**

1. Where a customs debt is incurred as a result of the acceptance of the customs declaration of goods for a customs procedure, other than temporary admission with partial relief from import duty, or of any other act having the same legal effect as such acceptance, the customs authorities shall enter the amount of import or export duty payable in the accounts within 14 days of the release of the goods.

However, provided that payment has been guaranteed, the total amount of import or export duty relating to all the goods released to one and the same person during a period fixed by the customs authorities, which may not exceed 31 days, may be covered by a single entry in the accounts at the end of that period. Such entry in the accounts shall take place within 14 days of the expiry of the period concerned.

2. Where goods may be released subject to certain conditions which govern either the determination of the amount of import or export duty payable or its collection, entry in the accounts shall take place within 14 days of the day on which the amount of import or export duty payable is determined or the obligation to pay that duty is fixed.

However, where the customs debt relates to a provisional commercial policy measure taking the form of a duty, the amount of import or export duty payable shall be entered in the accounts within two months of the date of publication in the *Official Journal of the European Union* of the Regulation establishing the definitive commercial policy measure.

3. Where a customs debt is incurred in circumstances not covered by paragraph 1, the amount of import or export duty payable shall be entered in the accounts within 14 days of the date on which the customs authorities are in a position to determine the amount of import or export duty in question and take a decision.

4. Paragraph 3 shall apply with regard to the amount of import or export duty to be recovered or which remains to be recovered where the amount of import or export duty payable has not been entered in the accounts in accordance with paragraphs 1, 2 and 3, or has been determined and entered in the accounts at a level lower than the amount payable.

5. The time-limits for entry in the accounts laid down in paragraphs 1, 2 and 3 shall not apply in unforeseeable circumstances or in cases of force majeure.

6. The entry in the accounts may be deferred in the case referred to in the second subparagraph of Article 102(3), until such time as the notification of the customs debt no longer prejudices a criminal investigation.

*Article 106***Delegation of power**

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine the cases referred to in point (d) of Article 102(1) where the customs authorities are exempted from notification of the customs debt.

*Article 107***Conferral of implementing powers**

The Commission shall adopt, by means of implementing acts, measures to ensure mutual assistance between the customs authorities in case of incurrence of a customs debt.

Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 285(4).

*Section 2***Payment of the amount of import or export duty***Article 108***General time-limits for payment and suspension of the time-limit for payment**

1. Amounts of import or export duty, corresponding to a customs debt notified in accordance with Article 102, shall be paid by the debtor within the period prescribed by the customs authorities.

Without prejudice to Article 45(2), that period shall not exceed 10 days following notification to the debtor of the customs debt. In the case of aggregation of entries in the accounts under the conditions laid down in the second subparagraph of Article 105(1), it shall be so fixed as not to enable the debtor to obtain a longer period for payment than if he or she had been granted deferred payment in accordance with Article 110.

The customs authorities may extend that period upon application by the debtor where the amount of import or export duty payable has been determined in the course of post-release control as referred to in Article 48. Without prejudice to Article 112(1), such extensions shall not exceed the time necessary for the debtor to take the appropriate steps to discharge his or her obligation.

2. If the debtor is entitled to any of the payment facilities laid down in Articles 110 to 112, payment shall be made within the period or periods specified in relation to those facilities.

3. The time-limit for payment of the amount of import or export duty corresponding to a customs debt shall be suspended in any of the following cases:

- (a) where an application for remission of duty is made in accordance with Article 121;
- (b) where goods are to be confiscated, destroyed or abandoned to the State;
- (c) where the customs debt was incurred pursuant to Article 79 and there is more than one debtor.

Article 109

Payment

1. Payment shall be made in cash or by any other means with similar discharging effect, including by adjustment of a credit balance, in accordance with national legislation.

2. Payment may be made by a third person instead of the debtor.

3. The debtor may in any case pay all or part of the amount of import or export duty without awaiting expiry of the period he or she has been granted for payment.

Article 110

Deferment of payment

The customs authorities shall, upon application by the person concerned and upon provision of a guarantee, authorise deferment of payment of the duty payable in any of the following ways:

- (a) separately in respect of each amount of import or export duty entered in the accounts in accordance with the first subparagraph of Article 105(1), or Article 105(4);
- (b) globally in respect of all amounts of import or export duty entered in the accounts in accordance with the first subparagraph of Article 105(1) during a period fixed by the customs authorities and not exceeding 31 days;
- (c) globally in respect of all amounts of import or export duty forming a single entry in accordance with the second subparagraph of Article 105(1).

Article 111

Periods for which payment is deferred

1. The period for which payment is deferred under Article 110 shall be 30 days.

2. Where payment is deferred in accordance with point (a) of Article 110, the period shall begin on the day following that on which the customs debt is notified to the debtor.

3. Where payment is deferred in accordance with point (b) of Article 110, the period shall begin on the day following that on which the aggregation period ends. It shall be reduced by the number of days corresponding to half the number of days covered by the aggregation period.

4. Where payment is deferred in accordance with point (c) of Article 110, the period shall begin on the day following the end of the period fixed for release of the goods in question. It shall be reduced by the number of days corresponding to half the number of days covered by the period concerned.

5. Where the number of days in the periods referred to in paragraphs 3 and 4 is an odd number, the number of days to be deducted from the 30-day period pursuant to those paragraphs shall be equal to half the next lowest even number.

6. Where the periods referred to in paragraphs 3 and 4 are weeks, Member States may provide that the amount of import or export duty in respect of which payment has been deferred is to be paid on the Friday of the fourth week following the week in question at the latest.

If those periods are months, Member States may provide that the amount of import or export duty in respect of which payment has been deferred is to be paid by the 16th day of the month following the month in question.

Article 112

Other payment facilities

1. The customs authorities may grant the debtor payment facilities other than deferred payment on condition that a guarantee is provided.

2. Where facilities are granted pursuant to paragraph 1, credit interest shall be charged on the amount of import or export duty.

For a Member State whose currency is the euro, the rate of credit interest shall be equal to the interest rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its main refinancing operations, on the first day of the month in which the due date fell, increased by one percentage point.

For a Member State whose currency is not the euro, the rate of credit interest shall be equal to the rate applied on the first day of the month in question by the National Central Bank for its main refinancing operations, increased by one percentage point, or, for a Member State for which the National Central Bank rate is not available, the most equivalent rate applied on the first day of the month in question on the Member State's money market, increased by one percentage point.

3. The customs authorities may refrain from requiring a guarantee or from charging credit interest where it is established, on the basis of a documented assessment of the situation of the debtor, that this would create serious economic or social difficulties.

4. The customs authorities shall refrain from charging credit interest where the amount for each recovery action is less than EUR 10.

Article 113

Enforcement of payment

Where the amount of import or export duty payable has not been paid within the prescribed period, the customs authorities

shall secure payment of that amount by all means available to them under the law of the Member State concerned.

Article 114

Interest on arrears

1. Interest on arrears shall be charged on the amount of import or export duty from the date of expiry of the prescribed period until the date of payment.

For a Member State whose currency is the euro, the rate of interest on arrears shall be equal to the interest rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its main refinancing operations, on the first day of the month in which the due date fell, increased by two percentage points.

For a Member State whose currency is not the euro, the rate of interest on arrears shall be equal to the rate applied on the first day of the month in question by the National Central Bank for its main refinancing operations, increased by two percentage points, or, for a Member State for which the National Central Bank rate is not available, the most equivalent rate applied on the first day of the month in question on the Member State's money market, increased by two percentage points.

2. Where the customs debt is incurred on the basis of Article 79 or 82, or where the notification of the customs debt results from a post-release control, interest on arrears shall be charged over and above the amount of import or export duty, from the date on which the customs debt was incurred until the date of its notification.

The rate of interest on arrears shall be set in accordance with paragraph 1.

3. The customs authorities may refrain from charging interest on arrears where it is established, on the basis of a documented assessment of the situation of the debtor, that to charge it would create serious economic or social difficulties.

4. The customs authorities shall refrain from charging interest on arrears where the amount for each recovery action is less than EUR 10.

Article 115

Delegation of power

The Commission shall be empowered to adopt delegated acts, in accordance with Article 284, in order to determine the rules for the suspension of the time-limit for payment of the amount of import or export duty corresponding to a customs debt referred to in Article 108(3) and the period of suspension.

Section 3

Repayment and remission*Article 116***General provisions**

1. Subject to the conditions laid down in this Section, amounts of import or export duty shall be repaid or remitted on any of the following grounds:

- (a) overcharged amounts of import or export duty;
- (b) defective goods or goods not complying with the terms of the contract;
- (c) error by the competent authorities;
- (d) equity.

Where an amount of import or export duty has been paid and the corresponding customs declaration is invalidated in accordance with Article 174, that amount shall be repaid.

2. The customs authorities shall repay or remit the amount of import or export duty referred to in paragraph 1 where it is EUR 10 or more, except where the person concerned requests the repayment or remission of a lower amount.

3. Where the customs authorities consider that repayment or remission should be granted on the basis of Article 119 or 120, the Member State concerned shall transmit the file to the Commission for decision in any of the following cases:

- (a) where the customs authorities consider that the special circumstances are the result of the Commission failing in its obligations;
- (b) where the customs authorities consider that the Commission committed an error within the meaning of Article 119;
- (c) where the circumstances of the case relate to the findings of a Union investigation carried out under Council Regulation (EC) No 515/97 of 13 March 1997 on mutual assistance between the administrative authorities of the Member States and cooperation between the latter and the Commission to

ensure the correct application of the law on customs and agricultural matters ⁽¹⁾, or under any other Union legislation or any agreement concluded by the Union with countries or groups of countries in which provision is made for carrying out such Union investigations;

- (d) where the amount for which the person concerned may be liable in respect of one or more import or export operations equals or exceeds EUR 500 000 as a result of an error or special circumstances.

Notwithstanding the first subparagraph, files shall not be transmitted in either of the following situations:

- (a) where the Commission has already adopted a decision on a case involving comparable issues of fact and of law;
- (b) where the Commission is already considering a case involving comparable issues of fact and of law.

4. Subject to the rules of competence for a decision, where the customs authorities themselves discover within the periods referred to in Article 121(1) that an amount of import or export duty is repayable or remissible pursuant to Articles 117, 119 or 120 they shall repay or remit on their own initiative.

5. No repayment or remission shall be granted when the situation which led to the notification of the customs debt results from deception by the debtor.

6. Repayment shall not give rise to the payment of interest by the customs authorities concerned.

However, interest shall be paid where a decision granting repayment is not implemented within three months of the date on which that decision was taken, unless the failure to meet the deadline was outside the control of the customs authorities.

In such cases, the interest shall be paid from the date of expiry of the three-month period until the date of repayment. The rate of interest shall be established in accordance with Article 112.

7. Where the customs authorities have granted repayment or remission in error, the original customs debt shall be reinstated insofar as it is not time-barred under Article 103.

⁽¹⁾ OJ L 82, 22.3.1997, p. 1.

In such cases, any interest paid under the second subparagraph of paragraph 5 shall be reimbursed.

Article 117

Overcharged amounts of import or export duty

1. An amount of import or export duty shall be repaid or remitted insofar as the amount corresponding to the customs debt initially notified exceeds the amount payable, or the customs debt was notified to the debtor contrary to points (c) or (d) of Article 102(1).

2. Where the application for repayment or remission is based on the existence, at the time when the declaration for release for free circulation was accepted, of a reduced or zero rate of import duty on the goods under a tariff quota, a tariff ceiling or other favourable tariff measures, repayment or remission shall be granted provided that, at the time of lodging the application accompanied by the necessary documents, either of the following conditions are fulfilled:

- (a) in the case of a tariff quota, its volume has not been exhausted;
- (b) in other cases, the rate of duty normally due has not been re-established.

Article 118

Defective goods or goods not complying with the terms of the contract

1. An amount of import duty shall be repaid or remitted if the notification of the customs debt relates to goods which have been rejected by the importer because, at the time of release, they were defective or did not comply with the terms of the contract on the basis of which they were imported.

Defective goods shall be deemed to include goods damaged before their release.

2. Notwithstanding paragraph 3, repayment or remission shall be granted provided the goods have not been used, except for such initial use as may have been necessary to establish that they were defective or did not comply with the terms of the contract and provided they are taken out of the customs territory of the Union.

3. Repayment or remission shall not be granted where:

- (a) the goods, before being released for free circulation, were placed under a special procedure for testing, unless it is

established that the fact that the goods were defective or did not comply with the terms of the contract could not normally have been detected in the course of such tests;

- (b) the defective nature of the goods was taken into consideration in drawing up the terms of the contract, in particular the price, before the goods were placed under a customs procedure involving the incurrance of a customs debt; or

- (c) the goods are sold by the applicant after it has been ascertained that they are defective or do not comply with the terms of the contract.

4. Instead of being taken out of the customs territory of the Union, and upon application by the person concerned, the customs authorities shall authorise that the goods be placed under the inward processing procedure, including for destruction, or the external transit, the customs warehousing or the free zone procedure.

Article 119

Error by the competent authorities

1. In cases other than those referred to in the second subparagraph of Article 116(1) and in Articles 117, 118 and 120, an amount of import or export duty shall be repaid or remitted where, as a result of an error on the part of the competent authorities, the amount corresponding to the customs debt initially notified was lower than the amount payable, provided the following conditions are met:

- (a) the debtor could not reasonably have detected that error; and

- (b) the debtor was acting in good faith.

2. Where the conditions laid down in Article 117(2) are not fulfilled, repayment or remission shall be granted where failure to apply the reduced or zero rate of duty was as a result of an error on the part of the customs authorities and the customs declaration for release for free circulation contained all the particulars and was accompanied by all the documents necessary for application of the reduced or zero rate.

3. Where the preferential treatment of the goods is granted on the basis of a system of administrative cooperation involving the authorities of a country or territory outside the customs territory of the Union, the issue of a certificate by those authorities, should it prove to be incorrect, shall constitute an error which could not reasonably have been detected within the meaning of point (a) of paragraph 1.

The issue of an incorrect certificate shall not, however, constitute an error where the certificate is based on an incorrect account of the facts provided by the exporter, except where it is evident that the issuing authorities were aware or should have been aware that the goods did not satisfy the conditions laid down for entitlement to the preferential treatment.

The debtor shall be considered to be in good faith if he or she can demonstrate that, during the period of the trading operations concerned, he or she has taken due care to ensure that all the conditions for the preferential treatment have been fulfilled.

The debtor may not rely on a plea of good faith if the Commission has published a notice in the *Official Journal of the European Union* stating that there are grounds for doubt concerning the proper application of the preferential arrangements by the beneficiary country or territory.

Article 120

Equity

1. In cases other than those referred to in the second subparagraph of Article 116(1) and in Articles 117, 118 and 119 an amount of import or export duty shall be repaid or remitted in the interest of equity where a customs debt is incurred under special circumstances in which no deception or obvious negligence may be attributed to the debtor.

2. The special circumstances referred to in paragraph 1 shall be deemed to exist where it is clear from the circumstances of the case that the debtor is in an exceptional situation as compared with other operators engaged in the same business, and that, in the absence of such circumstances, he or she would not have suffered disadvantage by the collection of the amount of import or export duty.

Article 121

Procedure for repayment and remission

1. Applications for repayment or remission in accordance with Article 116 shall be submitted to the customs authorities within the following periods:

However, the declarant may request a further examination or sampling of the goods if he or she considers that the results of the partial examination, or of the analysis or examination of the samples taken, are not valid as regards the remainder of the goods declared. The request shall be granted provided that the goods have not been released or, if they have been released, that the declarant proves that they have not been altered in any way.

That period shall run from the date on which the non-Union goods are placed under the procedure and shall take account of the time required to carry out the processing operations and to discharge the procedure.

2. The customs authorities may grant an extension, of reasonable duration, of the period specified pursuant to paragraph 1, upon justified application by the holder of the authorisation.

The authorisation may specify that a period which commences in the course of a month, quarter or semester shall end on the last day of a subsequent month, quarter or semester respectively.

import duty upon application by the holder of the authorisation or any other person established in the customs territory of the Union provided that that person has obtained the consent of the holder of the authorisation and the conditions of the authorisation are fulfilled.

2. Outward processing shall not be allowed for any of the following Union goods:

- (a) goods the export of which gives rise to repayment or remission of import duty;
- (b) goods which, prior to export, were released for free circulation under a duty exemption or at a reduced rate of duty by virtue of their end-use, for as long as the purposes of such end-use have not been fulfilled, unless those goods have to undergo repair operations;

- (d) goods in respect of which a financial advantage other than refunds referred to in point (c) is granted under the common agricultural policy by virtue of the export of those goods.

3. The customs authorities shall specify the period within which goods temporarily exported must be re-imported into the customs territory of the Union in the form of processed products, and released for free circulation, in order to be able to benefit from total or partial relief from import duty. They may grant an extension, of reasonable duration, of that period, upon justified application by the holder of the authorisation.

Where it is established to the satisfaction of the customs authorities that goods have been repaired free of charge, either because of a contractual or statutory obligation arising from a guarantee or because of a manufacturing or material defect, they shall be granted total relief from import duty.

4. Where the defective goods have been used before export, the replacement products must also have been used.

The customs authorities shall, however, waive the requirement set out in the first subparagraph if the replacement product has been supplied free of charge, either because of a contractual or statutory obligation arising from a guarantee or because of a material or manufacturing defect.

5. The provisions which would be applicable to the processed products shall apply to the replacement products.

Article 262

Prior import of replacement products

1. The customs authorities shall, under the conditions they lay down, upon application by the person concerned, authorise replacement products to be imported before the defective goods are exported.

In the event of such prior import of a replacement product, a guarantee shall be provided, covering the amount of the import duty that would be payable should the defective goods not be exported in accordance with paragraph 2.

2. The defective goods shall be exported within a period of two months from the date of acceptance by the customs authorities of the declaration for the release for free circulation of the replacement products.
